25X1X

1. Components for MiG-15 engines are being manufactured at the Sverma plant (formerly Walter aircraft plant) in Prague-Tinonice and at the Avia aircraft plant at Letnany (Cakovice). The most important components for these engines must, however, be manufactured only in the USSR. For this reason, the components for MiG-15 engines manufactured in Czechoslovakia are sent to the USSR for assembly there.
2. The Sverma plant was ordered to discontinue the production of sports planes.
